OBJECTIVE

To leverage my strong academic foundation, including a Postgraduate Diploma in Information Technology, to contribute to innovative solutions within a dynamic organization. As a motivated and detail-oriented individual with a passion for technology and continuous learning, I aim to gain hands-on experience, develop my technical and problem-solving skills, and make a meaningful impact as part of a collaborative team.

EXPERIENCE

March 2022 - April 2024

Volunteering Technician
Adept Advanced Technologies
- Installation of both home and business Wi-Fi.
-Deploying surveillance systems and biometric installations.
- Customer service.

August 2024 - February 2025

Salesforce Developer Intern
Quarphix Corporation
- Designing, customizing, and enhancing Salesforce solutions to meet business requirements.
- Configuring Salesforce features, managing data, and implementing custom functionalities to optimize user work flows.
- Collaborating with teams on projects like tracking system ensuring effective solutions align with organizational goals.

February 2025 - Present

Software Development Associate
CAPACITI
- Designed and developed a personal portfolio website using HTML, CSS, and Javascript, showcasing skills, projects, and contact details in a responsive and interactive format.
- Built a functional TO-Do List application with HTML, Javascript, CSS, and Node.js, implementation Crud operations and DOM manipulation to manage tasks efficiently.
-Developed a Movie Database application that fetches and displays movie information from API, applying JavaScript for API integration and dynamic rendering.
-Wrote unit tests to validate user IDs and ensure data integrity using modern testing frameworks, emphasizing test-driven development (TDD) principles.
- Practiced version control using Git and collaborated through platforms like GitHub for project tracking and code reviews.
-Strengthened front-end development skills and gained practical back-end exposure through Node.js project implementation.
